***DETAILED ACTION***

1. This action is responsive to communications: original application filed 01/28/2003.
2. Claims 1-35 are currently pending in this application. Claims 1, 14, 25, and 31 are independent claim.

***Election/Restrictions***

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-13, drawn to a computer network system for server(s) being in communication with communications channel, classified in class 709, subclass 201.
  - II. Claims 14-35 drawn to a method of extending a definition of a first tag used in a first electronic document, classified in class 715, subclass 513.
4. The inventions are distinct, each from the other because of the following reasons:
  - Inventions I and II are related as combination and subcombination. Invention in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the subcombination is for a first server, the first server being communication with the communication channel, wherein the first server stores a first schema, the first schema including a definition for a first element in the markup language, the definition of the first element further including a first sub-element in the markup language. The subcombination has

Art Unit: 2176

separate utility such as accessing the first schema and second schema in the first electronic document.

5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II or Group III, restriction for examination purposes as indicated is proper.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
